

COOKIES POLICY

What is a cookie?

A 'cookie' is a piece of information that is placed on your computer by websites that you visit. They are used by nearly all websites and do not harm your system.

The table below explains the cookies we use and why:

Cookie Name	Provider	Type	Expiry
GPS Cookie purpose description: registers a unique ID on mobile devices to enable tracking based on geographical GPS location.	youtube.com	HTTP	Session
VISITOR_INFOR1_LIVE Cookie purpose description: tries to estimate the users' bandwidth on pages with integrated YouTube videos.	youtube.com	HTTP	179 days
YSC Cookie purpose description: registers a unique ID to keep statistics of what videos from YouTube the user has seen.	youtube.com	HTTP	Session
PREF Cookie purpose description: registers a unique ID that is used by Google to keep statistics of how the visitor uses YouTube videos across different websites.	youtube.com	HTTP	8 months
NID Cookie purpose description: contains a unique ID Google uses to remember your preferences and other information and whether or not you wish to have Google Safesearch filter on.	google.com	HTTP	6 months

How do I change my cookie settings?

Most web browsers allow some control of most cookies through the browser settings. To find out more about cookies, including how to see what cookies have been set, visit www.allaboutcookies.org
